

Socially-charged event listings feature artist information, video, social media links, and Facebook commenting.

Artist Database

Crowdsourced, regularly updated database of over 200,000 artists stores bios, photos, videos, and social media links that can be imported into Ticketfly event listings quickly and easily.

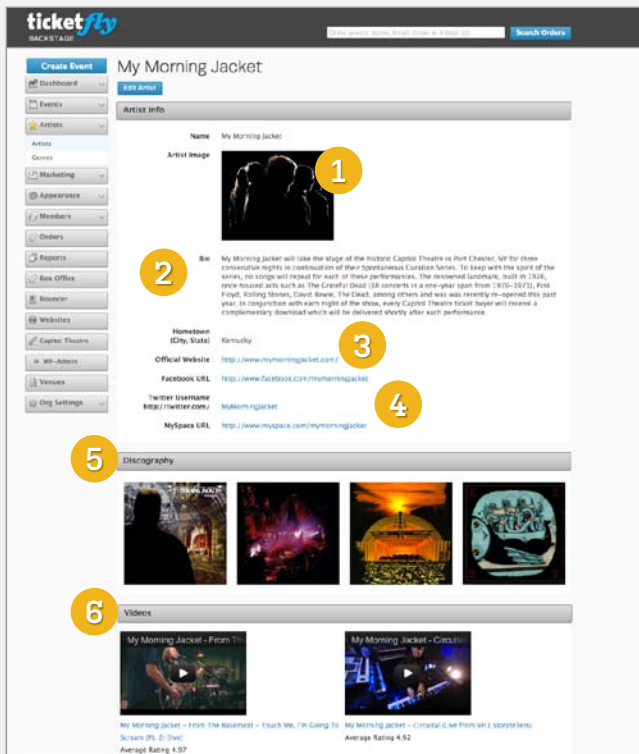

- ▶ Search and import headline and support act information into event listings from Ticketfly Backstage
- ▶ Crowdsourced information added regularly

Event Listings

Event listings with artist database information appear on ticketfly.com, your website, Facebook, and Ticketfly partner sites and blogs.

- ▶ Social media integrations, including Facebook RSVP boxes, Facebook commenting, and social sharing options, automatically appear on ticketfly.com event listings
- ▶ YouTube videos appear and play directly from Event Listings

“Compared to other ticketing companies, Ticketfly allows shows to go on sale instantly and allows the venue to add their own information to the show, like photos, links, etc. Editing has been a snap.”
